

Missoula City Council votes to back Montana Sustainable Building Center

March 16, 2010

Missoula City Council approved the City's partnership with the Montana Sustainable Building Center at Monday's City Council Meeting. The partnership allows the Sustainable Building Center to move to the final stages of securing a \$1.4 million Economic Development Administration grant. The grant money will help the MSBC purchase and renovate the building and grounds. Local re-use home improvements retailer Home Resource is the main tenant for the Center but additional space is available .
